PROFILE	Economist with strong academic training and professional experience in labor economics research and evidence-based public policy analysis, with emphasis on quantitative methods and administrative data for decision-making. I have worked in the design, evaluation, and monitoring of data-driven performance tracking instruments for minimum wage policy oversight, as well as in reports, studies, and research that combine econometric analysis with applied institutional inquiry.	
EDUCATION	El Colegio de México , Center for Economic Studies B.A. in Economics: - Graduate. Advanced coursework in economic theory, macroeconomics, microeconomics, econometrics, statistics, and <i>Big Data</i>. - Student Economic Analysis Seminar (SAE). Founder and first coordinator, with participation in the planning and promotion of academic activities. - Thesis: <i>International Trade and Labor Standards: The Rapid Response Labor Mechanism in the USMCA</i>. An evaluation of the Labor Rapid Response Mechanism on labor standards using firm-level data from the manufacturing sector and propensity scores. - University of International Business and Economics (Beijing, China), Academic Exchange (Jan. – Jul. 2024). Advanced coursework in Financial Analysis, Econometrics (Stata and R), and Digital Trade. Universidad Tecmilenio , Cuernavaca, Morelos Multicultural High School - All courses taught in English. - Elective courses in basic finance and accounting.	Aug. 2020 – Dec. 2024 Aug. 2016 - Dec. 2019
PROFESSIONAL EXPERIENCE	Comisión Nacional de Salarios Mínimos (CONASAMI), Labor Market Analysis Coordinator: - Responsible for monitoring the Performance Tracking Instruments of the entity's budget program, in accordance with the results-based management methodology and the logical framework methodology. - Analysis of current market indicators for the evaluation of public policies, social programs, and the preparation of policy reports and briefs. - Responsible for administrative activities and operational staff management. Elected member of the Ethics Committee and the Institutional Control and Performance Committee. - Preparation and consolidation of monthly institutional reports on results, program progress, and labor market variable behavior. Particularly on price trends, collective bargaining, strikes, social security coverage, employer registrations, and poverty lines. - Development of the Canasta Digna project: A subnational estimation of the living wage using data from the National Household Income and Expenditure Survey, intended to serve as a reference for minimum wage setting and salary and contract negotiations. Teaching Assistant, El Colegio de México Labor Economics. Prof. Laura Juárez González - Classroom support and supervision of student thesis development. - Literature review and study material preparation. Teaching Assistant, El Colegio de México Industrial Organization. Prof. Adriana Gama Velázquez.	Jan. 2025 - Present Aug. 2025 – Dec. 2025 Jan. 2025 – Jul. 2025 Jul. 2024 – Dec. 2024 May 2023 - Dec. 2023
	Social Service, CONASAMI In the Economic Analysis Division: - Statistical analysis of labor market tightness indicators. - Preparation of the social policy, collective bargaining, and price behavior sections of the monthly report.	
	Professional Internship, Federal Economic Competition Commission (COFECI)	

- Analysis of absolute and relative monopolistic practices, concentrations, and competition policies using qualitative and quantitative methods.
- Evaluation and presentation of econometric methods before the panel chair.
- Preparation of policy reports and briefs for a multidisciplinary team.

SKILLS
AND
LANGUAGES
